

REGEL- UND STEUERGERÄTE GMBH

# *PriWO refrigeration valves*

*Precise and reliable  
control for industrial  
applications*

# Our modular system for PriWO refrigeration systems

Six sizes, determined by the seat  
diameter of the valve body:

from DN3 (for Micro Cool only) to DN25

Feel free!

Order as it suits you:

- Assembly kit (includes all components)
- Assembled valves
- Individual components

Available versions:

**2/2-way servo valves**

- In NC or NO version  
(except CO<sub>2</sub> and MicroCool valve)
- Large selection of connection  
voltages

Proven flexibility thanks to the  
modular design of our valves:

**All components can also be ordered individually!**

So you only buy what you really need.

Valve bodies with connection  
variants «à la carte»
